DURAZZO™

DURAZZO's premium grade marble aggregates and the highest quality colored Diamond Quartz assures the pool owner of a pool finish with lasting beauty. The performance enhancing cement used in DURAZZO strengthens the finish by increasing its hardness, reducing water penetration and giving higher bond strength. The combination of superior ingredients and the unique application process is the cornerstone of DURAZZO's extravagantly beautiful and durable pool finish.

DURAZZO, the premium polished marbled pool finish, was designed with the user in mind. Ease of maintenance was a top priority. The impenetrable colored quartz within DURAZZO pool surface resists staining and etching that result from the exposure to harsh pool chemicals. Unlike traditional plaster surfaces, DURAZZO pools naturally fights off stains and chemicals that can damage your pool finish

TRANSFORM YOUR POOL
IN EVER LASTING BEAUTY

BEAUTY THAT STANDS
THE TEST EVERY TIME

Sea Stone

DURAZZO is a state-of-the-art, pre-blended pool finish designed to provide an exceptionally smooth, colorful and long lasting finish. DURAZZO's unique formulation of the whitest marble aggregates, highest quality color quartz, Portland cement and performance enhancing admixtures is resistant to common pool plaster problems like spot etching, staining and discoloration.

Traditional pool plasters are quickly deteriorated by harsh chemical environments. Spot etching, staining and discoloration quickly destroy these average pool surfaces marring their original beauty. DURAZZO pool finishes however, perform where normal pool plasters fail, resisting time and chemical elements.

A CASE WHERE BEAUTY AND COMFORT ARE REALLY MORE THAN SKIN DEEP

A superior pool finish performs in many ways. DURAZZO pool finishes create a rugged, aesthetic and exceptionally smooth surface to transform your pool into an elegant display of natural beauty.
